Interrogation Report

These five foreigners were held by the Police on December 9, 2009. They were all college students. They had deep interest in the religion and they were of the opinion that a Jihad must be waged against the infidels for the atrocities committed by them against Muslims around the world. Among them Ahmed Abdullah Minni used to regularly visit the internet page of YouTube. He used to the praise the videos which showed attacks on the US Army and Installations. This became a regular feature and Minni, a registered user of YouTube, regularly praised such attacks. Soon after, Minni was contacted by a person named “Saifullah”. The two pictures below show the YouTube website.

Minni was initially contacted on his YouTube user account; however, later on they used another way of communicating which could not be intercepted by the secret agencies. They used to write an email and then save it in the drafts section of the email. The other person used to log on to the same account and leave another message on the draft. This mode of communication enabled them to pass on messages without fear of interception by the FBI.

They made a plan with Saifullah to go to Afghanistan. Therefore, they reached Pakistan from where they would leave for Afghanistan. All of them gathered at Karachi and left for Hyderabad on December 1. They went to the Madrassah of Jaish-e-Mohammad where they informed them about their desire for Jihad. However, the management of the Madrassah refused to keep them, and advised them to go to Jamat-ud-Dawa Lahore. Interestingly the Jamat also refused to keep them as they could not provide a surety. Thus, they came along with their friend Umer Farooq to Sargodha.

The police took into custody their laptops, external hard drives, iPod, mobile phones.
